

WHEN CARE IS DELIVERED FROM THE HEART.

Living well encompasses many things. It is mental, physical, emotional and social. Interactive Caregiving is a philosophy of care that considers all of these factors and the importance of each.

WHEN CARE IS INTERACTIVE.

Interactive Caregiving provides the opportunity for seniors to participate actively in life, including their day-to-day care. It is based on doing with versus doing for and increases a sense of contribution and independence.

MATTER

HOW INTERACTIVE CAREGIVING™ HELPS KEEP PEOPLE

Happier, Healthier And At Home.

THE HEART OF COMFORTING CARE.

For over a decade, clients and their families have entrusted *Comfort Keepers*® to provide care that improves the quality of life of seniors and others and enables independent living.

WHAT SETS US APART?

INTERACTIVE CARE

Keeping people physically, mentally, emotionally and socially engaged can make a difference in their well being. At *Comfort Keepers*®, we call this philosophy of care *Interactive Caregiving*. It allows our clients to live a healthier and more meaningful life.

For example, we make mental exercise a part of our daily care be it through conversation, reading, playing games or other activities a client enjoys. And we know that even a moderate amount of exercise, within a client's limits, can improve a person's health and outlook on life.

TRANSFORMING DAILY ACTIVITIES

Transforming daily activities into interactive activities helps keep people strong, improves health and outlook on life, and reduces the risks for injury, depression, and symptoms of dementia.

PEOPLE MAKE THE DIFFERENCE

It takes a special person to be able to turn everyday activities and transform them into a joyful visit. That's why we refer to our caregivers as *Comfort Keepers*®.

Our people are:

- Rigorously interviewed
- Background checked
- Bonded and covered by Workers' Compensation
- Trained in Interactive Caregiving

It's that focus on our staff which allows us to treat our clients as if they were a member of the family.
